Disclaimer:

- This roadmap is intended to be legally non-binding, meaning that the Parties will not be legally obliged to comply with it. This is because Parties are not presently certain about the specific terms, which they can agree to, but still find it beneficial to put goals in writing, outlining broader objectives and confirming that they will act in good faith in pursuit of these goals.
- It is understood that the actual execution of this Roadmap will depend on situation caused by a pandemic and other economic circumstance as well as factors such as Operators' operational and projects' needs, contractual strategies, time and results of contractual negotiations (including relevant approvals from Operators' shareholder companies, Authority), etc.
- Assistance from IMB Center does not oblige any retaliatory action from the manufacturer. The services of the IMB Center do not represent a guarantee of the successful participation and / or successful award of Contracts to the manufacturer in the procurement processes of the Operators.
